

weapons of mass instruction

Weapons of Mass Instruction! That's the word we got about Caleb's commission. And we are deeply involved in disseminating these weapons of mass instruction.

We have joyously hosted ten YWAMers from Kona during the past week – passionate young men and women who want to be radical disciples of Jesus, and who came to be with us to get what we call the “Israel key that unlocks world revival,” before they continue their journey to Israel.

Before the Kona group left, Tod with two of our interns (Ben DuBose and Kappel Cloninger) left for Los Angeles speaking to a group of Korean businessmen about the prophetic time in which we are living.

John Parks (another of our interns) and I returned from Norway last week. We were in a conference whose theme was “Your People are My People.” The “Your People” book, now in its second printing, was made available to all the conference attendees. The conference was wonderfully attended by older and younger generations together.

Tod, Rachel and family with three of our interns will be in Kona for YWAM's 50th anniversary celebration this week.

All four of our interns went with Tod just a couple of weeks before that to YWam's Fire and Fragrance Discipleship Training School in Harrisburg, PA.

While they were in Pennsylvania, a leadership group from Georgia came through to spend time with us. They have been deeply involved in Bethlehem and with the Arab believers, but knew they also needed the “Israel piece.”

In all these settings, we want to be instruments to provide “weapons of mass instruction.” When we got the word about training schools, we were told that people would come from thousands of miles around to receive training and impartation. We are grateful to be a part of God's plan for this end time “greater riches” revival among Jewish people and the nations.

You who have stood with us through prayers, encouragement, financial support, and personal friendship, are a part of all that we do. Thank you for your love and trust. May all of us grow more and more like Jesus as the time for His return draws nearer.

The Caleb house in Thompson Station is becoming quite a hub of activity. Because of its nearness to the Deer Run Retreat Center, we are able to use Deer Run for housing groups who come through to spend time with us. Please keep praying with us for the finances for all God has called us to do.

For the King and for His Kingdom!
